♻ Recycled bottles needed to create a decoration

OUR HISTORY

It all began in Apt, in the heart of Provence, in 1973.

When Jean-Paul Blachère illuminated his first village, the smiles on the inhabitants' faces were his confirmation that light has a unique magical power. He then turned this experience into a profession, a passion and know-how that he passes on with love and respect for tradition.

We have now grown, delivering our decorations in over 80 countries, supported by our 600 members of staff in France and our 27 subsidiaries worldwide. We are proud to illuminate 70% of French districts with over 5,000 inhabitants and more than 1,000 towns and cities and 500 shopping centres worldwide.

Above all, we strive to do our job with the same passion as on the very first day.

The richness of our company comes from the experience gained through discussions, listening and the creative solutions provided for our customers.

When it comes to illuminations in Sweden, the United States, France or Mexico, the expectations are often different. The adaptability and professionalism of our local teams therefore ensure that we are able to meet the needs of each city and the culture of each country.

The ultimate aim, whatever the location around the globe, is to arouse emotions with our illuminations...

-
- 27 SUBSIDIARIES
 - 1000 TOWNS AND CITIES ILLUMINATED IN OVER 80 COUNTRIES
 - 800 SHOPPING CENTRES WORLDWIDE
-

BLACHERE KNOW-HOW

For us, creation is key: it starts with a sketch, a drawing by hand, an idea, a dream... then our designers bring it to life in the form of light. We are more than just manufacturers; we are passionate creatives with a single mission: to enthral the world by telling beautiful stories through fairytale designs, innovative decorations and magical luminous settings.

We are inspired by all that surrounds us, and by anything that could stir an emotion... Being creative is not mutually exclusive with professional expertise: this philosophy keeps us one step ahead and sets us apart from the crowd. Thanks to our innovations, we are able to strike the right balance between age-old know-how and industrialisation.

This is demonstrated by the fact that we are the only company in our market to have received the EPV living heritage company label.

-
- 12 LARGE-SCALE 3D PRINTERS
 - 5 PRODUCTION SITES AROUND THE WORLD
 - 500 PEOPLE IN OUR FRENCH AND INTERNATIONAL WORKSHOPS
-

This distinction is awarded to companies with exceptional know-how, combining tradition and innovation.

From decorative ironwork to the most painstaking wiring, more than 7,000 made-to-measure decorations take shape in our workshops in France and abroad each year: the "Haute Couture" of illuminations. In parallel, standard decorations from our summer and winter "Ready-to-wear" collections are printed using eco-friendly materials thanks to our fleet of twelve large-scale 3D printers in France and elsewhere.

Although our expertise was born in France over 50 years ago, we are delighted to now have five production sites in Europe, the Middle East and America, which allow us to deliver to countries around the world via local supply chains and to contend with the economic demands of the market.

OUR LARGE-SCALE 3D PRINTERS

We will never stop innovating in order to rise to the new ecological challenges with creativity and common sense.

Each year, we do everything in our power to create or replace parts of our decorations to make them more eco-friendly and limit their impact as much as possible. Thanks to our fleet of 12 large-scale 3D printers, since 2016 we have been printing structures in eco-friendly materials, thereby replacing 80% of the aluminium in our decorations.

Whether we are working with Bioprint, Recyprint or our brand-new Flexiprint, the operating

procedure is the same: the granules of these three materials are tinted with clean dyes and then injected into our 3D printers to produce coloured structures.

Our manufacturing processes are patented.

This innovation has enabled the creation of a workshop dedicated to 3D printing, along with a dozen jobs, most of which are new professions within our group.

BIOPRINT

Bioprint is a bio-based material derived from GM-free sugar cane turned into dehydrated bioethanol under the supervision of a French laboratory. Our Bioprint decorations are reused or recycled at the end of their life, and remain biodegradable if they are thrown away. Biodegradation is the breakdown of organic materials by microorganisms, without causing damage to the natural environment.

- **• BIOBASED, MADE FROM SUGAR CANE**
- **• 100% BIODEGRADABLE AND RECYCLABLE**

RECYPRINT

600 billion bottles are produced each year, and many of them end up in the oceans. At Blachere, we have decided to turn this waste into magical decorations. The plastic bottles collected are recovered by specialist bodies, which recycle them.

This post-consumer recycled plastic from the food industry is then injected into our printers in the form of granules. Over four million bottles have already been turned into decorations to date.

- **• MADE FROM PLASTIC BOTTLES**
- **• 100% RECYCLABLE**

FLEXIPRINT

Following on from Bioprint and Recyprint, this year we have created Flexiprint with the same aim of reducing our products' impact and adopting a sustainable and ecofriendly approach.

After months of tests, we are now offering a unique material made from recycled plastic that is supple enough to cover our three-dimensional decorations, like textile or mesh. This new material therefore now adorns our figures or Christmas trees, supplementing our ranges of sustainable and eco-friendly products.

- **• MADE FROM RECYCLED PLASTIC**
- **• 100% RECYCLABLE**

OUR ECO-FRIENDLY MATERIALS

Innovation has always been in our DNA. As our company was born in 1973 at the heart of the oil crisis, we have been continually developing the construction of our decorations since our company was founded to make them more eco-friendly and limit their impact as much as possible.

Every year, more than 35,000 decorations are restored and reconditioned to be hired out or resold once more. We also put in place measures to encourage a clean end of life for all our products.

RECYCLED ALUMINIUM

The frameworks and support structures of our decorations are made of aluminium, composed of 70% recycled material.

ECO-FRIENDLY MATERIALS

OUR COLOURS AVAILABLE

LOW-CONSUMPTION LEDS

Our decorations and all the products in the fairy lights and spotlights section are equipped with ultra-low consumption LEDs that consume ten times less energy than traditional lighting.

SOLAR POWER ALTERNATIVE

To respond to your ecological concerns with creativity and common sense, certain decorations are available with solar panels, making them totally self-sufficient.

CONTROLLING YOUR DECORATIONS

Smart energy management is an integral part of a global eco-friendly urban policy. To be able to control your illuminations as best as possible, we offer you a range of boxes as well as complete control systems, which can be found in the accessories section at the end of the catalogue.

CLEAN END OF LIFE FOR DECORATIONS

At Blachere, we ensure:

- The repair, reuse, collection and processing of waste electrical and electronic equipment.
- Bioprint, Recyprint and Flexiprint are recyclable and repurposed.

SUSTAINABILITY AND RECONDITIONED DECORATIONS

At Blachere, it is essential to look after things and take a long-term approach. We don't throw away, we repair!

We give our decorations a new lease of life – sometimes more than once – and offer our clients a broad range of fully serviced and reconditioned decorations: an ecoaware and responsible mode of consumption with decorations that remain of high quality and attractively priced.

Our servicing process stretches from January to June. 50 to 60 people are enlisted in our workshops to repair 35,000 decorations per year, whether they are lamppost decorations, figures

or fairy lights.

The decorations are carefully tested and repaired one by one, by hand, according to extremely exacting repair and servicing criteria.

The most sensitive products are then stored on racks in our covered warehouses, and the others in our outdoor area. Just under three hectares in total is dedicated to storing these decorations.

Our sales team remains at your disposal to present our full range of reconditioned decorations.

Long live Blachere Illumination decorations!

-
- 35,000 DECORATIONS SERVICED EACH YEAR
 - EXTREMELY EXACTING SERVICING AND REPAIR CRITERIA
 - A FULL RANGE OF RECONDITIONED DECORATIONS

OUR COMMITMENTS TO CSR, LABELS & QUALITY

We keep our communication short but truthful. Our CSR approach is in keeping with our attitude for the past 50 years. Everything that we create to light up the world absolutely must respect our planet and care for humanity.

We are keen to create a working environment that allows every employee to flourish. We like to develop, train and support our staff, to make them want to stay, while offering them the chance to advance and learn. For us, gender equality and equal opportunity are the keys to success, and we are proud to employ almost as many women as men in our teams.

Social and professional integration offers multiple opportunities for people with disabilities or the long-term unemployed.

Boasting ISO 9001 certification experience for 12 years, we have now decided to develop our own quality criteria, tailored to our market and specific to the constraints of our unique profession.

The goal to be achieved is key, but how we achieve it is even more so! Come and visit us and you'll see!

Living Heritage Company (EPV) is an official French label delivered under the authority of the Ministry of the Economy and Finance, to designate French companies with artisanal and industrial expertise deemed exceptional.

Launched in 2000, the United Nations Global Compact is the largest global initiative in terms of social responsibility. We signed up to the compact in 2023, and incorporate the principles regarding human rights, international labour standards, environmental protection and fighting all forms of corruption into our strategy.

The French Touch is an inspiring and inspired movement created to support the economic growth of cultural and creative industries. The French Touch brings together companies in the sector to form a network of motivated and determined entrepreneurs united around four core values: creativity, excellence, boldness, and authenticity.

Launched in 2017, La French Fab flies the flag for French industry in motion. La French Fab represents companies, economic players, institutions and industrial sites located in France who want to develop French industry.

The Le Coq Vert community is THE community of companies committed to the energy and ecological transition. This logo demonstrates our commitment to putting climate concerns at the heart of our strategy.

This label showcases companies involved in the circular economy. It is awarded to manufacturers that introduce recycled plastic materials into their production.

THE BLACHERE FOUNDATION

The fruit of a passion for contemporary art and the African continent, our corporate foundation was established by Jean-Paul Blachère in 2004.

It supports contemporary art from Africa and the promotion of artists from the African continent.

In its 400m² arts centre at the heart of the Luberon region, it presents exhibitions

and welcomes artists in residence in France and Africa. It takes part in major African biennales, notably the Dakar Biennale.

Since its creation, over 500 male and female, unknown or renowned artists have stepped through the door opened by the Foundation into the vast world of contemporary art.

COMMON SENSE AND KINDNESS ARE AT THE HEART OF OUR BEHAVIOUR IN THE BLACHERE GROUP

NORDIKA, AS REALISTIC AS A NATURAL ONE

Who doesn't love a fabulous Christmas tree?

And yet, it takes between 30 and 40 years for a natural conifer to reach 12m in height. As we want to avoid deforestation halting the felling of these majestic trees, we invented NORDIKA.

Pre-illuminated with a slowglow effect, easy to assemble and store, they are perfect replicas of their natural version, both in their design and incredibly realistic appearance - as true to life as

it gets.

Our environmental approach is based on a simple principle: to save at least as much carbon as we generate. We do this by only using biocompatible materials, which we recycle at the end of their lifespan.

**OPTIONAL
TREETOP**

**HYPER REALISTIC
CHRISTMAS TREE BRANCHES**

WOOD-EFFECT TRUNK

**WOOD EFFECT
STAND AVAILABLE**

NORDIKA, THE CHRISTMAS TRADITION

The perfect regularity of the branches, the realistic high-quality finishes and a majestic size make our conifers a festive must. You can customise your Nordika every year for a unique look: hang

Christmas baubles on its branches, add a set of lights, or even set it on a wooden base.

TO ORDER

Ref	Name	Height	ø	P(W)	Weight	No of elements	Colour of Led	No of Led
GX081LW-2	sapin Nordika - PM	5,00 m	3,56 m	245 W	263 kg	46	☀	2976 (1488 steady + 1488 with slowglow effect)
GX082LW	sapin Nordika - MM	8,00 m	4,70 m	770 W	1 112 kg	107	☀	8664 (4332 steady + 4332 with slowglow effect)
GX083LW	sapin Nordika - GM	12,00 m	5,90 m	1870 W	2 750 kg	194	☀	21048 (10524 steady + 10524 with slowglow effect)

**FREE STANDING
NO NEED TO SECURE WITH
WIRES**

The Nordika is built on a robust internal framework that ensures its stability without the need for external cables or wires for balance.

**TOTALLY
SAFE 24V**

100% secure thanks to its 24V voltage across the entire tree.

**INDOOR &
OUTDOOR USE**

Thanks to its weather-resistant structure and durable materials, it withstands outdoor conditions perfectly while remaining elegant and safe indoors.

**PVC
FREE**

The recyclable polyethylene branches provide a natural appearance and an eco-friendly approach. This innovative material perfectly mimics the look of real branches while being durable and environmentally friendly.

**PRE-LIGHTED
WITH 100% LED
SLOWGLOW EFFECT**

No need to install string lights anymore: the tree comes pre-decorated and ready to shine.

**CAN BE TOTALLY
DISMANTLED**

Transport and storage are also made easier.

NORDIKA, ACCESSORIES

DECORATIVE BAUBLES KIT

Each kit features 52 baubles in the same colour (M1/B1 category-fireproof)-50% shiny /50% satiny

SUSPENSIONS COLLECTIONS

GENERAL CATALOGUE

ARTY

The ARTY collection is inspired by the refinement and purity of the Art Deco artistic movement. We have elegantly mixed the geometric lines of this timeless artistic style with the traditional symbols of Christmas.

Flashes, diamond shapes and streamlined curves are accented with light, enabling us to create an extremely elegant and dynamic decoration that is equally beautiful day and night in your streets.

Grace

The GRACE collection is inspired by Baroque style. Born in Italy in the 17th century, this artistic movement is characterised by its majestic ornamentation and arabesques, symbols that we have chosen to combine with more pared-back contemporary lines. An essential element in Baroque style, the chandelier is available in several versions that you will find in these pages.

Precious

The Precious collection is inspired by the world of jewellery and fashion.

The design's lines echo those of items of jewellery: long necklaces, pendants and pearls are all refined references found in this theme.

A symbol of Christmas par excellence, the bow evokes connection, sharing and the joy of gifting, imposing its precious and timeless style.

COSY

Close your eyes and breathe in the delicious scent of cinnamon that fills the alleyways of the Christmas market. Pine green, red and gold are the key colours in this collection, which has a warm, traditional and gourmand feel. Lanterns of every variety are an integral part of this Cosy collection, an ode to festive winter traditions with family and friends.

Cristal

The Cristal collection brings a breath of freshness to your polar decoration. Delicate arabesques and more decorative lines warm up this glacial world. New snowflakes with softer designs in warm shades, mixing pure white and warm white, make up this range inspired by the nomadic peoples of the Far North.

SOLAR RANGE

Varied decorations that adapt to all your decoration themes and work with solar energy

**Consumption:
Zero watts !
Zero € !**

Thanks to our new solar-powered rechargeable battery, you can combine lighting with energy efficiency.

Once your decor is in place, position the solar box on top of it facing the right way, set your switch-on and switch-off times and enjoy your lighted decorations.
Technical details:

- 8 to 10 hours of recharging with optimal sunlight for 7 hours of lighting.
- Your lights can be programmed to operate for 5, 6 or 7 hours.

Enter decor reference no. + PIXSOL2

PIXSOL2

20W panel power
7,2W power output

When you set it up, make sure it is facing the right way to get the most sun during the day
These decorations are equipped only with 24V LED garlands.

100%
autonomous

PLAY MAGIC

Play in augmented reality!

Allowing audiences to do things like take a photo with Father Christmas or play with Charlie the Unicorn, our augmented reality apps add virtual characters into the real world, leaving the public laughing and amazed. Children and adults can easily take part in the fun using a smartphone enjoying an unforgettable experience that transforms reality into a unique performance.

How does it work?

For the public, the idea is simple: When users approach the Play Magic banner, the app they have pre-installed on their phone automatically unlocks to give them access to the games.

They can then share the experience on their social media pages. The public app features your branding and a link to your website or social media.

For the city:

The games app has a subscription model valid while the illuminations are up, with games updated each year.

Apart from this, all you need to do is install the banner near the illuminations to tell the public they can enjoy a free game on their phone in the location. There is no need for any connection. The app's success also depends on you advertising it on displays in your town/city and on your social media pages.

We can assist you in setting up your communications (Réf. ARCOM below).

CUSTOMIZABLE & MADE-TO-MEASURE

BI-SEASON ARCH & TREE

Discover our dual-season urban furniture that adapts with the changing seasons!

First of all select your base:

A bright arch composed of pure white LEDs, livened up with wooden benches

A shade tree endowed with pure white LED spots and a white wooden bench base equipped with USB plugs.

Then, for a colourful summer look, add the SUMMER passive decoration kit to this base.

For a frosted look for year-end celebrations, add the WINTER bright decoration kit.

2D & 3D LETTER

Stand Out! Showcase your identity with our XXL Lettering

Place them wherever you like—on roundabouts, in front of your town hall, or near any iconic landmark in your community.

We offer various options for volume, size, color, and weighted base:

Our 2D letters come in Recyprint gold and white, made from recycled plastic bottles and fully recyclable. They are available in heights of 1.4m or 2m. The lightweight, discreet aluminum frame is crafted from recycled material and designed to hold your weighted base.

This year, we're introducing 3D letters with added depth. Covered in Flexiprint—our new flexible, recyclable material made from recycled plastic—these letters feature white front and back faces with gold-colored edges.

Two sizes are available:

- 1.8m with a depth of 60cm
- 1.4m with a depth of 40cm

These 3D letters also come with a black lacquered base that serves as a weighted support, offering a turnkey, ready-to-install lettering solution.

All our lettering includes warm white spotlights, so your name will shine at nightfall.

DRESSING CITY BARRIERS & PLANTERS

2D ground decor

Adorn your urban furniture with colourful environmentally-friendly decorations!

Marine, floral or butterfly theme – customise the decoration of your town barriers or planters. You can choose the background colour of the decoration as well as the motif which will be applied on top, everything will be tailor-made in Bioprint, our biodegradable, recyclable material.

Customised project, contact us.

TREE CORSET

3D ground decor

Embellish your tree trunks!

Our tree corsets will adorn and light up your trees while protecting them and ensuring optimal hold. Available in bright or passive versions and in a wide array of colours, there are unlimited combinations to liven up your urban areas or green spaces with style and creativity.

Customised project, contact us.

FUNNY ANIMAL CONTAINERS

Our funny animals join you on your recycling journey!

Educating young people about recycling is a major challenge, and we have met it with creativity and humor.

We have transformed this vital initiative into a fun and joyful collective act with animal-shaped recycling containers. Placed in city centers or along beaches, whales, fish, and turtles house recycling bins.

The collected plastic bottles are retrieved by specialized organizations, from which we source the raw material. This is then fed into our printers to produce structures made from Recyprint, our material crafted from PET (polyethylene terephthalate) sourced from the food industry.

led+

An exclusive 100% Blachere® innovation

Taking a practical approach to innovation, our R&D department has developed the all-new Led+ in fixed and slowflash versions to give your projects a real boost! The result of a collaboration with Nichia®, the world leader in LEDs, we now offer you an exclusive new Led range.

+ bright, + robust, + long life, + uniform colour

The new technical characteristics of Led+ are:

- > **Design optimised and registered** to promote the lighting efficacy of our solutions (inverted cone principle).
- > **Maximised heat dissipation** for longer LED life.
- > **Uniform phosphor deposition** for uniform light output.
- > **2-year guarantee**
- > **Optimum protection rating: IP66/IP69**
- > **230V Octoplus by Blachere IP67 connectors**

LED+ RANGE: MORE EFFICIENT, LESS ENERGY-CONSUMING

Blachere is committed to tackling environmental and energy issues: In 2024, we will be lowering the power consumption of our LED+ range in order to reconcile illuminations with energy efficiency

As a result of extensive work on the energy performance of our LEDs, **we have reduced the wattage of our LED+ range by an average of 15%**, while maintaining its brightness and lifespan (the wattage of each product has been updated in our technical specification tables).

As a result, our products **consume less energy while maintaining the same high light density.**

The different types of Blachere® LEDs.

LED + :
See box on the left

LED Classique :
A robust and stable encapsulated LED with an inverted interior cone.

LED RGBWW/RGB :
A special capsule for better color diffusion.

Micro LED :
A LED delicately placed on a micro cable, creating a fine and refined effect.

LED SMD :
The ultimate electrical component, manufactured by an automatic machine.

GARLAND iLED ColorTech by Blachere®

RGBWW - multicoloured

RGBWW technology completely reinvented!

Over the last 2 years, we have developed a new RGBWW LED, **the brightest on the market, which can be controlled pixel by pixel** using a combination of software and "open command" animations (DMX compatible).

With incredible luminosity and a range of unique colours, our RGBWW garland opens up a host of possibilities for illuminated decorations (garland configuration or curtain configuration, for trees and facades).

This technology requires a personalised analysis tailored to your project

Ask for an analysis!

Brighter (WW 10 lumen per pixel)

New shape of LED

Up to 6 end-to-end garlands (768 linear pixels) > 490 000 pixels

Free pixel addressing

Open software (DMX compatible), professional and intelligent (multilingual)

Single colours / shades (2300/2500K warm white)

Reinforced (nylon cable)

GARLAND iLED ColorTech by Blachere®

RGBWW - multicoloured

Transform an avenue or a square into a unique, multicolored, and animated spectacle.

By equipping your trees with iLED ColorTech RGBWW, you become the conductor of this show, creating your own animations according to your preferences and schedule (hourly, daily, weekly, or even monthly, for example).

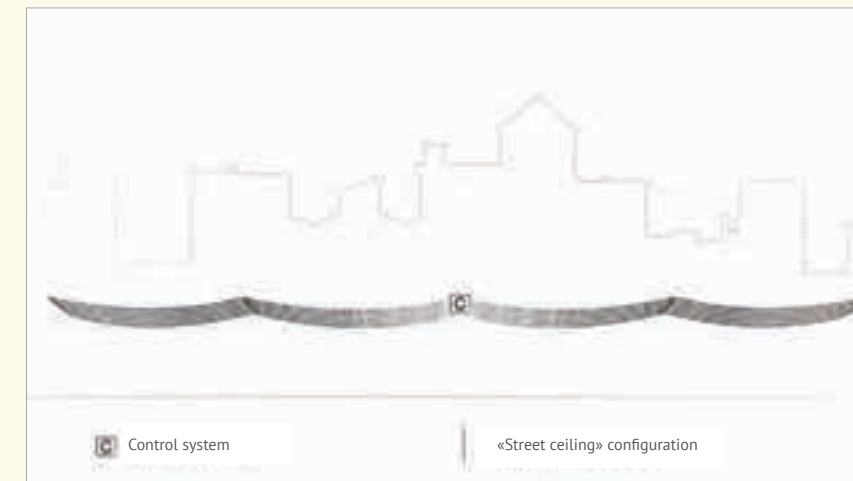

Create a multicolored and animated tent above a square or roundabout. An aerial installation that creates a magical starry sky, fully customizable to your preferences.

Transform your main avenue into a unique gathering place and energize your city center by creating a multicolored light show.

The endless animation possibilities will allow you to create a spectacle (for example, every half hour) and attract a crowd that loves light events! A great way to boost your local economy during the festive season...

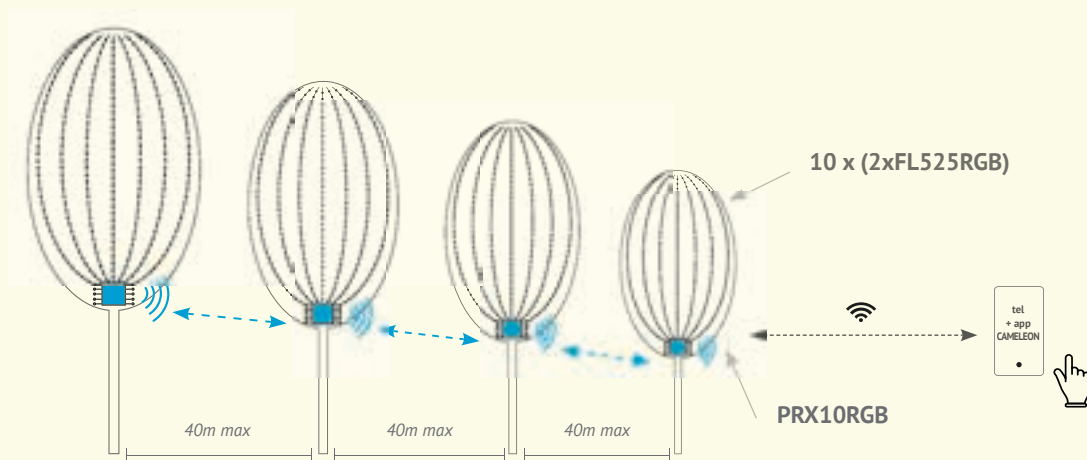

Why not create your own giant light screen on the façade of your town hall? Each evening, attract a crowd of spectators eager to enjoy the light show, specially designed for the occasion, to complement your Christmas market or city festivities!

MULTICOLOURED RGB CONTROLLABLE GARLAND

colour changing

PRODUCT DETAILS

Customise the lighting, colour and animation of your trees, on a monthly, weekly or special event basis throughout the year.

For a tree of 8 to 10m:
 - 20 FL525RGB strands for 10 radians of 7.50m (2x3.75),
 - a PRX10RGB box
 - the Cameleon application on your smartphone.
 Maximum colour spectrum thanks to RGB LED technology.
 Communication via Bluetooth 5 between communications, Wi-Fi communication between phone + sets.

PRODUCT INFO

Customise your garland with different bulbs suggested on p185 and make up your own eye-catching effect.

Replace your old incandescent bulbs with LED bulbs, new technology with vintage look but more economical so more ecological.

LDL B22/E27 range (registered design)

LDLH B22 SMD range

LDLFL-B22

F722-L / F732-L

B22/E27 BULBS & STARFLASH®

PRODUCT INFO

The LDL series is a classic of Blachere lighting. A registered model, the particular arrangement of the LEDs in the bulb globe gives a «filament effect» similar to the incandescent bulbs of yesteryear.

The polycarbonate globe guarantees an increased solidity (IK06).

The LDLFL-B22 recreates the effect of a flame, regardless of the mounting direction.

F722-L / F732-L

A historical product that is easy to use on a B22 lampholder.
Produces 1 flash approximately every 3 seconds.

Low power consumption bulb - Note : use the appropriate power (16mA i.e 3,68VA) to calculate the rating of your network (cable section area, circuit breaker, power required etc.). Use 0,5W per bulb to calculate the power consumption.

In outdoor use, must be mounted on garland with B22 sockets minimum IPX4 with waterproof seal fitted.

HONEYCOMB LIGHT® TREE NET

flash

PRODUCT INFO

This net makes easy the decoration of tree trunks... with light. Thanks to its honeycomb mesh, it is placed around the trunk and adjusted to the diameter.

Ergonomic and practical, it will take you on average 10 times less time to dress your tree trunks than with a traditional garland!

The colour of the cable (brown) allows it to be less visible during the day and is exclusive to Blachere Illumination.

BUNCH LIGHT® BOUQUETS

with RGBWW LEDs

KBRGBWW

Our new Bunch Light® RGBWW Bouquets can be placed on the floor to create animated, multi-coloured lighting surfaces.

They can be custom-controlled to create an overall lighting design. Each bead can be controlled like a pixel to create a multicoloured field of light. The rods are flexible and move with the wind, creating an animated and truly magical display.

This product is sold in packs of 6 bouquets, each made up of 8 RGBWW beads.

If your project requires a customised analysis, please contact your account manager.

OUR STEERING SOLUTIONS

It's time to step up the smart city movement to save more energy.

Eco-designed equipment that is sustainable and smart energy management are part of any global eco-friendly urban policy. Blachere Illumination is committed to working alongside cities and developing innovative solutions to protect our planet and our future.

With our lighting management systems, you can remotely manage lighting with a single click.

Whether it's with **our range of timer boxes or our MASTER+SAVER global control system on the next page.**

This makes it easier for the city to manage its electricity resources in line with its ecological and sustainable development aspirations.

ON/OFF BOX WITH REMOTE CONTROL

When you fit your set with this remote control switch, you can install and connect your set to the public lighting system in advance and switch it on manually with the remote control on the day of the lighting show, without having to interact with the box installed on lighting set.

Box ref: TERUP

Remote control ref: TERUP-C (can control multiple TERUP boxes)

- SIMPLE **ON/OFF** CONTROL
- WORK **VIA REMOTE CONTROL**

TEMPO 2 BOX UNIVERSAL & 7-HR PROGRAMMABLE

When you fit your set with the TEMPO2 box, you can disconnect it from the public lighting network. Sets are switched off automatically after 7 hours, from the moment the street lighting switched on.

By connecting a TERUP ON/OFF box upstream of this box, you can trigger the timer using the remote control.

Compatible with Octoplus **and/or any other decor.**

Box ref: **TEMPO2**

- AUTOMATIC **7-HOUR** TIME DELAY
- CONTROL IS **ON THE BOX**

TEMPO+ BOX PROGRAMMABLE FROM 5 TO 10 HRS

When you fit your set with the TEMPO+ box, you can disconnect it from the public lighting network and can adjust the lighting times you want and programme the lights to go out. A long press means you can select 5, 6, 7, 8, 9 or 10 hours of illumination followed by automatic switch-off. By connecting a TERUP ON/OFF box upstream of this box, you can trigger the timer with the remote control. Octoplus compatible.

Box ref: **TEMPO+**

- TIME DELAY SELECTABLE **BETWEEN 5 AND 10 HOURS**
- CONTROL IS **ON THE BOX**

MASTER+SAVER SYSTEM

Fit your light displays with SAVER boxes. One of lighting sets will be «group leader» and will be equipped with a MASTER box. The MASTER box can be programmed with the switch-on times/days and will communicate the same information to all the SAVERS via Bluetooth.

The distance between SAVER and MASTER must not exceed 50m. If two sets are more than 50m apart, you will need to make a new group with a new MASTER box. You also need to be close to the MASTER, with your phone in your hand and the application open, to be able to control your sets.

Lighting sets can be pre-programmed in our workshops or programmed by the customer themselves using the dedicated mobile application.

- SUPER EASY CONTROL VIA **MOBILE APPLICATION**
- CREATION OF **SET GROUPS**
- PROGRAMMING OF **SWITCH-ON DAYS AND TIMES**
- MANAGEMENT OF **SWITCH-OFF TIMES FOR ENERGY SAVINGS**
- **SECURE W - DATA PROTECTION**

OCTOPLUS BY BLACHERE®

Exclusive

OctoPlus by Blachere® 230V connector, protection rating **IP67**, according the European standard EN60529 on the degree of protection provided by enclosures.

Safety extra-low voltage connector 12/24V

Special connector RGBWW 12V

OctoPlus is the connector that enables fast and multiple connection between our decorations and most of our range of garlands. Each item that is marked “OctoPlus” can therefore be connected to another “OctoPlus” item. This means the combination of items is infinite just by simplifying the electrical connections.

This strap is reusable and does not slip

SOLAR ACCESSORIES

A new roundabout to decorate but no power supply?

Or looking to illuminate a street on your own with zero carbon emissions?

Choose our solar solutions.

Discreet panels, with an integrated autonomous and programmable system (switch-on and switch-off times).

Adapted light decorations, 24V garlands, and more. We offer you a **complete range that is 100% self-powered.**

All you need is sunshine!

Consult our advisory teams for a personalised analysis

SOLAR KIT SELF-POWERED

KITSOL

- Kit containing a solar panel with high-performance monocrystalline cells.
- Gel batteries for 2400 cycles with discharge..
- Power regulator and discharge protection.
- 24V or 230V output easily switched by rotary selector.
- Can be fixed to the floor.

PRODUCT INFO

- 50% battery consumption after 12 hours.
- Low-power prevents battery damage.
- Easy to move thanks to flexible rubber wheels with high abrasion resistance.
- Maintenance-free and easy to install.

SOLAR KIT POLE

PIXSOL2

- 20W panel power
- 7.2W power output
- DAILY PROGRAMMER: selection of the days and times lighting set is switched on
- 8 to 10 hours of sunshine required for 7 hours of lighting set operation

COMPATIBLE PRODUCTS

BALLASTING ILLUMINATIONS

Dress up your blocks as pretty gifts!

Use our magical gifts to hide the concrete blocks in your decorations!

Depending on the features of your decoration, put together your own ballast kit and wrap your gift (size & colour).

Wrapping steps (clips are supplied)

Example : KPLO100B + KFLEXCA1

1. Choose your block

Reference	Description	dimensions
KPLO100B	Concrete block - 100kg	0,37 x 0,37 x 0,37m
KPLO040	Concrete block - 40kg	0,30 x 0,30 x 0,20m
KPLO020	Concrete block - 20kg	0,20 x 0,20 x 0,20m

2. Choose your cover

Reference	Description	dimensions	colour
KFLEXCA2	Block cover - PM	0,2 x 0,2 x 0,2m	blue / white
KFLEXCA5	Block cover - MM	0,3 x 0,3 x 0,2m	blue / white
KFLEXCA8	Block cover - GM	0,37 x 0,37 x 0,37m	blue / white
KFLEXCA1	Block cover - PM	0,2 x 0,2 x 0,2m	red / white
KFLEXCA4	Block cover - MM	0,3 x 0,3 x 0,2m	red / white
KFLEXCA7	Block cover - GM	0,37 x 0,37 x 0,37m	red / white
KFLEXCA3	Block cover - PM	0,2 x 0,2 x 0,2m	green / white
KFLEXCA6	Block cover - MM	0,3 x 0,3 x 0,2m	green / white
KFLEXCA9	Block cover - GM	0,37 x 0,37 x 0,37m	green / white

Get inspired at blachere-illumination.com

GOING PAPER FREE

Here at Blachere, above and beyond just being deeply concerned about sustainable development and our carbon footprint, we are constantly looking for ways to increase the efficiency of the tools we use, which has naturally led us towards going paper-free.

Though the «zero paper» business is somewhat of a Utopian ideal, going paper-free considerably reduces the amount of printouts we produce and, as a consequence, our impact on the environment. The paper tools we do continue to use are printed on paper from sustainably managed forests at our «Imprim'vert» accredited printers.

QR Code in our catalogue gives you access to multiple additional media: videos of our decorations and installations, how they look in the daytime, work in progress photos and technical information about the products.
